Gate City Stone Filter!

These Filters are easily cleaned, and NEVER become CRACKED or CRAZED by change of temperature of the water. The Filtering Medium is a NATURAL STONE, mined from the earth. It is unlike any other stone.

It Does Not Absorb and Become Foul!

IMPURITIES never PENETRATE it, but lie on the surface, and internally the stone remains as pure and white after years of use as when taken from the mine.

The Gate City Stone Filter is a perfect success. It is the only real filter I have ever seen. I would not be without one for any consideration. It converts our lake water into the best drinking water in the world.
